OpenText can help you tackle the most complex digital transformation projects with confidence. With the world's most complete and integrated Information Management Platform, we empower our customers to organize, integrate and protect data and content as it flows through business processes inside and outside their organization.

TWAIN Working Group

The TWAIN Working Group, established in 1992, is a not-for-profit association of industry leaders who have gathered to create a standard that benefits the imaging industry as a whole. TWAIN's purpose is to provide and foster a universal public standard which links applications and image acquisition devices. The ongoing mission of this organization is to continue to enhance the standard to accommodate future technologies. TWAIN generates multiple opportunities for application developers and users to access information and broaden the standard; through a developer's forum, main website and online self-certification process. Current members of the TWAIN Working Group include P3iD Technologies, Inc., Visioneer, Inc., ExactCODE GmbH, PFU America Inc., InoTec – a Datawin GmbH brand, Kodak Alaris, Plustek, Inc., Atalasoft, Microtek, Inc., Dynamsoft, Epson America, Inc., LEAD Technologies, and Hewlett Packard.
